## Tea Tricks

**These teas are as much a pleasure for the eyes as they are to the palette.**

Experience a cup of tea like never before. Drop a Tea Blossom, by Adagio Teas, in hot water and the hand-woven cluster slowly unfurls, exposing a delicate flower sitting at the bottom of your mug. Watching the petals open as you sip adds a soothing aesthetic to tea time.

You'll find a night-blooming jasmine flower in the Jasmine Bloom variety, and an exotic orange lily in the Red Bloom flavor.

At \$10 for a 10-bloom box, the wrapped teas--only recently available outside of China--won't replace your Lipton fix but they're great for rainy days and special occasions.
